PROFESSIONAL SUMMARY

Software Engineer with 2.5+ years of experience building scalable full-stack applications, backend microservices, and cloud-native systems using React.js, Next.js, Node.js, NestJS, and PostgreSQL. Skilled across API platform engineering, cloud/DevOps automation, applied security (OAuth2/OIDC, Zero Trust), and AI-powered data pipelines. Delivered measurable impact including 30% API latency reduction, 80% faster dashboard rendering, and 35% lower production MTTR.

WORK EXPERIENCE

Software Engineer — Charmai Technologies Pvt. Ltd.

Mar 2025 – Present

New Delhi, India

- Applied OAuth 2.0/OIDC security (PKCE flow, JWT validation, Zero Trust) behind a secure proxy, closing interception and injection risks in identity-provider integrations.
- Developed and maintained API proxies on Apigee X, deployed NestJS/Express microservices on Kubernetes via Helm, and enforced API standards using Spectral, ESLint, and Nx monorepo tooling.
- Built policy-based authorization (Open Policy Agent) and contributed to Kubernetes network security (Calico), decoupling access control from application code.
- Integrated 4 LLM providers (Anthropic, OpenAI, Gemini, Mistral) behind a unified API proxy for flexible model routing.
- Built an automated Python ETL pipeline (S3 → PostgreSQL) and Lambda integrations with third-party APIs, removing manual data entry.
- Optimized nested PostgreSQL queries across a 70+ table schema and built real-time analytics dashboards for business reporting.
- Delivered 40% faster frontend development and reduced API response time by 25% via optimized Backend-for-Frontend patterns.
- Achieved 95% test coverage (Jest, Playwright) with 100% CI success, and cut production MTTR by 35% via Splunk-based monitoring.

Software Engineer — Misemind Technologies Pvt. Ltd.

Mar 2024 – Feb 2025

New Delhi, India

- Boosted dashboard rendering speed by 80% using server-side pagination, Ag-Grid virtualization, and data batching.
- Built a unified CRM-integrated platform (React, TypeScript) with a reusable MUI design system, accelerating UI delivery.
- Integrated AWS Cognito and OpenSearch, cutting auth/search latency by 30%, while maintaining 85%+ test coverage.

Frontend Developer (Remote) — TGH Tech

Dec 2023 – Feb 2024

Kochi, Kerala

- Built modular React components integrated with backend microservices, improving load times using React Query and Axios.
- Achieved 80% unit + E2E test coverage and contributed to API testing and documentation using Swagger.

TECHNICAL SKILLS

Languages & Frameworks: Java, JavaScript, TypeScript, Python, React.js, Next.js, Node.js, NestJS, Express, Redux Toolkit, React Query

Cloud, DevOps & API Management: AWS (Lambda, S3, Secrets Manager, Cognito), Docker, Kubernetes, Helm, Calico, Apigee X (API Gateway), CI/CD, Nx monorepo

Databases & Search: PostgreSQL, MongoDB, OpenSearch, Weaviate, Pinecone

AI/ML & Data: LangChain, RAG pipelines, multi-LLM integration (OpenAI, Anthropic, Gemini, Mistral), Vector Search

Security & Auth: OAuth 2.0/OIDC, PKCE, JWT, Zero Trust, Open Policy Agent (OPA), AWS Cognito

Monitoring & Testing: Datadog, Komodor, Splunk, Swagger, Spectral, ESLint, Jest, Playwright

PERSONAL PROJECTS

GeniAI – AI-Powered Insurance Management System

- Built a GPT-4o conversational UI (React, Next.js) with PDF-driven semantic search using MongoDB Atlas Vector Search and role-based dashboards.

SocioVerse – Social Media Platform

- Built a full-stack social platform (React, Redux Toolkit, Express, MongoDB) with JWT auth and Multer-based file uploads.

EDUCATION

Bachelor of Technology in Information Technology

Aug 2019 – Jul 2023

Guru Gobind Singh Indraprastha University, New Delhi, India

- 8.5 CGPA (85% equiv.). Coursework: DS, Web Dev, OS, Computer Networks, Software Engineering.
